George Bernard Shaw once opined that the people who get on in this world are the people who get up and look for circumstances they want and, if they can't find them, make them. Doug McClay is such an individual. And most fortunately for us, the real estate business in our area is part of his experience.

Doug was born and educated in western Missouri but was enthralled by Southern California while on a visit here, so it didn't take long to make the shift.

Photography in some of its more specialized fields—industrial and commercial advertising, newspaper photography, etc.—has occupied a large share of Doug's business career. In fact, one may see samples of his fine work in the new photographic listing system being inaugurated by Howard J. Percy Realty, 2224 Torrance boulevard, Torrance, for whom Doug works.

Show business—the little Theater branch—has been a prime hobby of the McClays for some time, with both Doug and his wife taking an active part in some of the better known groups.

Buying old houses and refurbishing them was the leader into the real estate business for Doug McClay. With a flair for interior decorating, this was combining an interesting hobby with business. The McClays have recently reworked their own home with many striking and unusual effects.

Doug describes himself as an

MARCH OF DIMES MERCY APPEAL MADE

Residents of Los Angeles County are being asked to open their hearts and purse-strings in raising their share of the desperately needed \$75,000,000 in the annual March of Dimes mercy appeal, January 2 through February 2, was announced today by Torrance Chairman Mrs. Clara A. Conner.

It is most significant to note and understand that this year's campaign against polio will be held partly to finance one of the greatest mass trial vaccinations ever held in the world, Mrs. Conner declared, and will be the most crucial drive in history of the National Foundation for Infantile Paralysis.

"Even with the possibility of a polio-preventive in sight, we must still not forget, however, the thousands of polio victims throughout Los Angeles County who still desperately need our help, for polio care and treatment is most expensive," Mrs. Conner pointed out.

Los Angeles County suffered more than half of California's case load occurring before the end of October in 1953.

"These unfortunate victims of one of the most dreadful diseases in the history of mankind will need hospital, medical, and rehabilitation care far beyond their financial means for a prolonged period of time. We must insure that through our con-

A-S Park To Get New Name

Inasmuch as the name Avalon-Sepulveda Park had not been officially accepted by the Board of Supervisors, the A-S Park Recreation council was very much interested in trying to change the name of the park to one that was easier to say at its last meeting.

A name proposed by Elmer tributions their plight will not be forgotten," Mrs. Conner stressed.

Additional funds will also be needed to finance the National Foundation's gamma globulin program, which remains the sole anti-polio weapon at the nation's disposal, until a vaccine is tested and proven, and to continue our research and education programs, he said.

LEAFY PLANT

The cephalotus is an Australian plant that bears two kinds of leaves. One set of leaves is ordinary while the other set is fly-catching.

THE TEACHINGS of Jesus were simple; and yet he found it difficult to make the rulers understand, because of their great lack of spirituality.—Mary Baker Eddy.
